- Discharge planning with acute and chronic patients in a high-risk setting, provide psychosocial counseling to patients and their families provide consultation to physicians and hospital personnel on psychosocial problems of the patient, contact community resources as an advocate of the patient, assist patients in completing applications for resources, aid to victims of violent crime, SSI, etc., conduct in-service and orientation training to new hospital personnel, also on call two days a week in the Emergency Room, providing crisis intervention services.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

- 1980-1981      Whittier Elementary School  
6328 East 17th Street  
Oakland, California 94606  
  
School Psychologist/Social Worker Intern:  
  
Providing individual, family and group therapy for elementary school-aged youth (8-11 years.) in an indigent high-risk population, keeping detailed records of these sessions, working with the school's personnel on an advisory basis, conducting a "therapeutic classroom" for children with a combination of learning and psychosocial problems, writing a proposal to secure funds for a community-oriented cross-age tutorial program.
- 1980-1980      Rancho San Antonio  
21000 Plummer Street  
Chatsworth, California 91311  
  
Relief Counselor for Juvenile Delinquents:  
  
Implementing the daily program of the agency, doing "on the spot" trouble-shooting and counseling with boys 13-18 years of age in a "milieu" treatment environment, conducting twice weekly therapy groups of ten boys, conducting weekend outings, keeping daily case records for each boy, attending all agency meetings.
- 1978-1980      Hathaway Home for Children  
1981-1981      8955 Gold Creek Road  
Pacioma, California 91331  
  
Assistant Supervisor for Child Care Workers  
  
Supervising and coordinating the duties of the living units child care staff, insuring the needs of the children in the living unit were being met, "trouble-shooting" in potentially volatile situations and assisting the child care staff in coping with them, keeping daily records of each of the boys, (ages 11 to 15) activities and behavior, working with the Cottage therapist around the psychosocial aspects of the child's treatment, attending all living unit meetings.
- 1977-1978      San Fernando Valley Boys Club  
13421 Van Nuys Boulevard  
Pacioma, California 91331  
  
Counselor of Police-Referred Delinquents:  
  
Conducting individual and family counseling with male and female youths (ages 13 to 17) from a high-risk community with substance abuse and gang related difficulties, co-leading teen rap groups, attending all staff meetings, in-service training and case conferences.
- 1974-1978      Venice Community Church  
522 Venice Boulevard  
Venice, California 91291  
  
Outreach Counselor for Community Youth:  
  
Assisted with coordinating the agency's three programs for the youths (6 to 15) in a high-risk poor community, with other volunteers, doing a bi-annual needs and impact assessment of the program. Worked in recruiting community volunteers and resource agencies to aid in the needs of the program.

**Extramural Research and Evaluation Support/Funding**

**Title:** Magic City Stroke Prevention Project (MCSPP)

**Funding Agency:** Department of Health and Human Services/NHLBI/Office of Minority Health

**Total Amount:** \$2,400,000/4 years (actual)

**Percent Effort on Project:** 15% per year

**Funding Period:** 08/30/2004 – 8/31/2008

**Role on Project:** Principal Investigator and Director

**Project Description:** The grant will support a new initiative aimed at reducing the excessively high rates of stroke, stroke disabilities and stroke deaths that disproportionately occur in the southeastern region of the United States. The SBEI represents a collaborative effort among all HHS agencies and is part of the Closing the Health Gap Initiative, which seeks to reduce racial and ethnic disparities in healthcare. The SBEI consists of four core interventions including development and implementation of a community-wide awareness and education campaign, a communications network that informs individuals of the availability of free blood pressure screening activities, a component for health professionals that emphasizes improvement of blood pressure control rates for persons with hypertension, and a component for health systems and health plans that emphasizes improvement of blood pressure control rates for persons with hypertension. The Magic City Stroke Prevention Group will work with public and private organizations to develop and implement programs aimed at preventing and controlling hypertension and lowering the stroke rate in Central Alabama. Specific tasks are to provide the leadership and oversee all project activities, work closely with DHHS, work closely with project collaborating partners, lead the data and evaluation efforts, lead the project's Steering Committee, and work with project staff and partners on writing and publications.

**Title:** Center for Health Promotion

**Funding Agency:** Centers for Disease Control and Prevention

**Total Amount:** \$4,357,475/5 years (actual)

**Percent Effort on Project:** 33% year1; 35% years 2-3; 30% year 4; 40% year 5

**Funding Period:** 09/30/2004 – 9/30/2009

**Role on Project:** Co-Investigator/Associate Director of Research and Evaluation (Max Michael, MD, PI)

**Project Description:** The UAB Center for Health Promotion (Center) is both a Centers for Disease Control and Prevention (CDC) Prevention Research Center (PRC) and a designated UAB University Wide Interdisciplinary Research Center. The Center's long-standing mission is "to bridge the gap between public health science and practice in risk reduction across the life span among African Americans and other under-served communities and to determine the benefits of sustained efforts to build community capacity and to reduce risk factors within under-served communities." This mission guides all of the Center's activities and has led to the Center's focus on community-based prevention and research activities, efforts to reduce health disparities in the Black Belt Region of Alabama and a commitment to culturally competence evaluation. Specific tasks in the Center is to oversee all research activities, including the Special Interest Research Projects (SIPs), Other Collaborative projects, serving as Co-PI and Community and qualitative data research specialist on the Center's Flying Sparks core research project, to serve on the Center's Executive Committee, Co-Direct the Center' Evaluation Unit and lead the Center's Writing and Publications committee

**Title:** Behavioral Sciences Core, Center for AIDS research (CFAR) University of Alabama at Birmingham

**Funding Agency:** National Center for AIDS Research /NIH

**Total Amount:** \$55,918/5 years (actual)

**Percent Effort on Project:** 10%/year

**Funding Period:** 3/1/2003 – 4/30/2007

**Role on Project:** Co-Investigator/ (PI, Eric Hunter, PhD/Leslie Clark, PhD)

**Project Description:** Co-wrote the community research, consultation and qualitative project methodology.

The overall mission of the Behavioral Sciences Core (BSC) of the UAB CFAR is to make a substantial contribution to interdisciplinary HIV-Related research – whether initiated by behavioral, clinical, basic science, epidemiology, or other faculty – and assure a value-added contribution to CRAF through integration of behavioral expertise in the fullest range possible of CFAR activities. The BSC's specific aims are as follows: (1) developing the capacity of behavioral sciences faculty throughout UAB to conceptualize and implement HIV-related behavioral research projects including those that are community-, clinically-, and internally-based; (2) developing the capacity of non-behavioral sciences faculty, particularly those associated with the UAB CFAR, in the range of behavioral variables, measures, and interventions that may be incorporated into a comprehensive HIV research program; and (3) facilitating linkages between the CFAR and other centers of behavioral expertise within the UAB community. Specific tasks on the project include advising BSC and CFAR members on the recruitment and retention of representative community-based samples into medical treatment, clinical, vaccine and prevention trails, and evaluation of these community efforts, as well as developing workshops and roundtables in these domains to develop capacity and enhance linkages between the behavioral and non-behavioral investigators.

**Title:** ASU-UAB Partnerships for the Reduction of Reproductive (REAP) Health Disparities in Minority Teens and Young Adults in Alabama ((1 R24 MD00151-01)

**Funding Agency:** National Center for Minority Health Disparities (NCMHD)/NIH (EXPORT Resource-Related Research Project)

**Total Amount:** \$293,918/3 years

**Percent Effort on Project:** 10%

**Funding Period:** 10/1/2002 – 9/30/2005

**Role on Project:** Co-Investigator/Director Mentoring Core (PI, Myung-Hi Kim Oh, MD)

**Project Description:** Co-wrote the project proposal and wrote the project methodology. The project is a collaborative effort between Alabama State University (ASU)(an HBCU) and the University of Alabama at Birmingham (UAB). The overall goal of the proposed REAP project, ASU-UAB EXPORT Project, is to advance the Mission and Vision of the NCMHD of reducing and ultimately eliminating minority health disparities in America. The REAP Project employs an interdisciplinary approach to address a significant and well-documented need among ethnic minority groups, reproductive health and health disparities in Alabama. The Mentoring Core will aim to provide a structured pipeline of opportunity for junior faculty and fellow trainees at ASU and UAB to further develop and sustain the growing ASU-UAB partnership through joint pilot research and/or visiting scientist appointments. The ultimate goal of the Mentoring Core is to PREPARE culturally competent health scientists capable of independently contributing to the elimination of the nation's minority health disparities. The anticipated outputs of this project will include an application for an EXPORT Center Grant (P-20 OR P-60) of the NCMHD, NIH in 2005.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** National Coordinating and Evaluation Center (NCEC): Sickle Cell Disease (SCD) Community Programs (1 U93 MC 00217-01)

**Funding Agency:** MCHB/HRSA/DHHS

**Total Amount:** \$750,000/year (\$210, 213/site budget to date)

**Percent Effort on Project:** 35%

**Funding Period:** 9/2002 – 8/2005

**Role on Project:** PI/Project Director and Principal Evaluator

**Project Description:** Co-wrote the project proposal and wrote the project methodology. Based on principles of community-based program and assessment and using a team specifically trained to 'fit' the parameters of the NCEC: The major goals of this project are to serve as the national center for the coordination, monitoring and evaluation 15 funded community-based SCD projects who provide educational and counseling support to patients and families of infants positively screened for SCD or carriers of abnormal hemoglobins. The efforts of these first projects will serve as model for programs that will be funded in later stages of the initiative. Secondly, the purpose of this grant is to provide consultation and technical assistance to the community-based SCD organizations, consumer groups, state agencies, newborn screening programs, SCD treatment and research centers, and other agencies promoting newborn screening and other SCD-related education programs associated with the care of children, adolescents, and adults with SCD for health care workers, patients, and patient support groups in the community. A third goal is to link multiple service sites through a uniform set of databases for pilot-testing and implementation in order to enhance outreach, follow-up care, management and treatment with the aim of reducing early mortality and morbidity for those infants identified with a hemoglobinopathy. As PI/Project Director advocate for standard screening practices, support the efficacy of counseling provision for families; and work to establish a nationwide comprehensive SCD outreach program, standardized assessment tools and linked database all to begin in year one and to be implemented and sustained in subsequent grant periods.

**Title:** Healthy 2010 Alabama: Development and Evaluation

**Funding Agency:** Children's Rehabilitative Services /HRSA Maternal and Child Health Bureau to the Alabama Department of Rehabilitative Services

**Total Amount:** \$42,5000/ongoing

**Percent Effort on Project:** 10%

**Funding Period:** 7/2002 – present

**Role on Project:** Co-PI (PI Beverly Mulvihill, Ph.D.)

**Project Description:** Co-wrote the proposal and methodology section. The project is a collaborative effort between the Children's Rehabilitative Services (CRS) and the Department of MCH, UAB SOPH. Based on Key principles of strategic planning developed by Ginter and Duncan and implementation evaluation, the purpose of the project is assist CRS with the implementation and assessment efforts of the six goals of HP 2010 for Children with Special Health care Needs (CSHCN) in Alabama. The UAB team's role is to: 1) develop and implement the training of CRS central and field staff and workgroup leaders for the purpose of providing input for the 2010 implementation strategy; 2) to develop and implement the assessment of the work of the workgroups; and 3) collaborate on the consolidation, utilization and dissemination of information and relevant findings from the workgroup assessments. The UAB team will work with key CRS staff to prepare all project data reports.

**Title:** Couples HIV counseling in two African Capitals

**Funding Agency:** National Institute of Mental Health (R01 Grant )

**Total Amount:** \$2,000,000/5 year project

**Percent Effort on Project:** 20% per year

**Funding Period:** 8/2002-9/2004

**Role on Project:** Co-Investigator (Susan Allen, PI)

**Project Description:** Co-wrote the research grant with the UAB Center for AIDS Research. The purpose of the grant is to link activities in two capital cities in Africa (Kigali, Rwanda and Lusaka, Zambia) in order to develop, implement and assess the effectiveness of a community voluntary couples testing (HIV) program. **Special expertise provided** in the areas of Community Development, Culturally Competent Qualitative and Quantitative (psychometric), measurement and Indicators item and tool development, community-based collaboratory/participatory research, evaluation, and education primary and secondary data collection methods and analyses, problem-solving, review and summary write-up of the research.

**Title:** Alabama Comprehensive Health Services Profile Project (ACHSPP)

**Funding Agency:** Alabama Department of Public Health

**Total Amount:** \$80,000/year

**Percent Effort on Project:** 5%

**Funding Period:** 10/2001 – 9/2004

**Role on Project:** PI/Project Director and Principal Evaluator

**Project Description:** Co-wrote the project proposal and wrote the project methodology. Based on principles of database development and using a team specifically trained to ‘fit’ the parameters of the ACHSPP: a) worked with the ACHSPP staff, community and technical advisory committee and health care specialists to identify and document reproductive and sexual health, medical, dental and allied health practitioners (group), programs and services for persons in Alabama; b) worked with the project team to develop, maintain and update the ACCESS and website services and program database file; and c) in collaboration with ACHSPP staff, and community and technical advisory committee, developed and implemented the protocol for data analysis, review, written product production and use by person accessing the project database and use for technical reports and academic publications.

**Title:** Evaluation Consultation (Technical Assistance) SPRANS Genetics Grantees

**Funding Agency:** Health Resources and Services Administration, Maternal and Child Health Bureau, Division of Services to Children with Special Health Needs

**Total Amount:** \$108,450 total for 2 years

**Percent Effort on Project:** 10%

**Funding Period:** 7/2000 - present

**Role on Project:** Evaluation Consultant

**Project Description:** Assisted with the writing evaluation consultation statement of work. Based on the Integrated Model of Community-based Evaluation (IMCBE): a) conduct intermittent evaluation capacity building phone and site visits with ten grantees and staff of the HRSA/MCHB Division of Services to Children with Special Health Needs – Genetics Disease Branch; b) review and provide feedback on the design and implementation processes and intermittent outcomes evaluation of the grantees; c) assisted grantees in the re-development of their objectives to make them specific, measurable, attainable, relevant and time anchored; d) assisted grantees in the development of common, content and site specific indicators, and measures; e) provided assistance to HRSA/MCHB Division of Services to Children with Special Health Needs – Genetics Disease Branch staff and 10 community project grantees on issues and situations specific to community evaluation outreach, collaboration, negotiation and program development and sustainment; and f) provided assistance to HRSA/MCHB Division of Services to Children with Special Health Needs – Genetics Disease Branch staff with professional and protocol development.

**Title:** Birmingham Health Care Homeless Project – Evaluation Component

**Funding Agency:** Substance Abuse and Mental Health Services Administration (SAMHSA)

**Total Amount:** \$225,000 per year (\$22,607/site budget)

**Percent Effort on Project:** 5 % per year

**Funding Period:** 3/2000 - 11/2000

**Role on Project:** Principal Evaluator

**Project Description:** Assisted with re-writing evaluation component. Based on the Integrated Model of Community-based Evaluation (IMCBE): a) using the project’s measurable objectives, the SAMHSA logic model indicators, and in collaboration staff, developed the quantitative and qualitative measures, data collection instruments and protocols; b) in collaboration with staff, developed and implemented the protocol for data analysis, review, written product production and use by the project; and c) “Building Capacity to Build Capacity” by providing introductory and on-going in-service training on the fundamental principles and methods of community evaluation.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** Children's Rehabilitative Services Traumatic Brain Injury Program- Evaluation Component

**Funding Agency:** HRSA Maternal and Child Health Bureau to the Alabama Department of Rehabilitative Services

**Total Amount:** \$3,500/ongoing

**Percent Effort on Project:** 4%

**Funding Period:** 2/2000 - present

**Role on Project:** Evaluation Analyst

**Project Description:** Assisted with the development, implementation and formative evaluation of the outreach, case coordination service collaboration, and training components of this multi-year project aimed at the prevention of poor quality of life outcomes. Conducted the review and analyses of all standardized and project specific instruments and the resulting qualitative and quantitative data. Prepared all project data reports.

**Title:** Evaluation of the Alabama Community-based Outreach and Education Initiatives

**Funding Agency:** Bureau of Family Health Services (BFHS) of the Alabama Department of Public Health (ADPH)

**Total Amount:** \$150,000

**Percent Effort on Project:** 10%

**Funding Period:** 1/2000 - 6/2001

**Role on Project:** Principal Evaluator

**Project Description:** Wrote evaluation grant. Based on the Integrated Model of Community-based Evaluation (IMCBE): a) conduct intermittent evaluation capacity building workshops for BFHS staff and grantees; b) design and implemented process and intermittent outcomes evaluation; c) assisted grantees in the re-development of their objectives to make them specific, measurable, attainable, relevant and time anchored; d) assisted grantees in the development of common, content and site specific indicators, and measures; e) collaborated, coordinated and implemented with BFHS staff and grantees the projects' protocols, instrument and methods to collect state-level and project specific data; f) developed and implemented the protocol for data analysis, review and use by the BFHS staff and Community projects; and g) provided assistance to BFHS staff and community projects on issues and situations specific to community outreach, collaboration, negotiation and program development and sustainment.

**Title:** Northern Health Clinic Teen Outreach - Evaluation Component

**Funding Agency:** Jefferson County Department of Public Health

**Total Amount:** \$3,000/ongoing

**Percent Effort on Project:** 4%

**Funding Period:** 10/99 - 8/2000

**Role on Project:** Evaluation Consultant

**Project Description:** Assisted with the development, implementation and formative evaluation of the outreach, education and behavior change intervention component of this multi-year project aimed at the prevention of subsequent pregnancies and births of teen mothers Northern Birmingham Area of Alabama.

**Title:** Alabama's Children's Health Program (CHIP) Evaluation

**Funding Agency:** Alabama Department of Public Health

**Total Amount:** \$363,769

**Percent Effort on Project:** 15%

**Funding Period:** 5/99-6/2002

**Role on Project:** Co-Principal Investigator and Principal Evaluator

**Project Description:** Assisted with the writing of the proposal. The purpose of the evaluation is to assess the effect of the program on reducing the disparity in the access and utilization of health and medical services for children in low income and working poor families.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** Housing Program Plus Development Project

**Funding Agency:** Fannie Mae Foundation to Betty Bock and Robert Corely, Pls, of the UAB Center for Urban Affairs.

**Total Amount:** \$2,727,977 total cost of the project over a three-year period

**Percent Effort on Project:** 5% on project with evaluation support of 15%

**Funding Period:** 9/98-12/2000

**Role on Project:** Co-Investigator and Principal (Community-based) Evaluator

**Project Description:** Assisted with writing the grant. The evaluation component is a collaborative/participatory approach that is based on the methods of the Integrated Model of community-based Evaluation (IMCBE) originated by the evaluator that includes a resident and neighborhood asset assessment and building component.

**Title:** Birmingham Healthy Start Community Outreach component – Program and Community-based Evaluation Component

**Funding Agency:** Jefferson County Department of Public Health through a grant from the Federal Maternal and Child Health Bureau

**Total Amount:** \$140,000(funding-to-date)/ongoing

**Percent Effort on Project:** 8%

**Funding Period:** 6/98 - 8/2002

**Role on Project:** Co-Investigator and Community-based Evaluator

**Project Description:** Wrote community-based evaluation grant. Collaboratively developed, implemented and formatively evaluating the community outreach and networking component of this multi-year project aimed at the reduction of infant mortality negative maternal outcomes in the Greater Birmingham Area of Alabama.

**Title:** Implementation and Use of the Alabama Sickle Cell Disease Registry (Research Project 7)

**Funding Agency:** National Heart, Lung & Blood Institute (P60 Grant # 1P60HL58418-01)

**Total Amount:** \$300,000/5 year for research project 7

**Percent Effort on Project:** 10%

**Funding Period:** 4/98-3/2001

**Role on Project:** Principal Investigator

**Project Description:** Wrote the research grant. This social epidemiological research is using a collaborative/participatory approach that is based on the methods of the Integrated Model of community-based Evaluation (IMCBE).

**Title:** Hale County Empowerment and Revitalization Organization (H.E.R.O.), Inc. - Rural Health Outreach Project

**Funding Agency:** U.S. Office of Rural Health

**Total Amount:** \$500,000 total cost of the project over a three year period to HERO

**Percent Effort on Project:** 10%

**Funding Period:** 10/97-9/2000

**Role on Project:** Co-Investigator and Principal Evaluator

**Project Description:** Assisted with writing the grant. Collaboratively developed, implemented and formatively evaluating this first time health-based outreach and targeted service delivery project. The evaluation is a collaborative/ participatory approach that is based on the methods of the Integrated Model of community-based Evaluation (IMCBE) originated by the evaluator that includes a “Building Capacity to Build Capacity” component.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** YWCA of High Point/Sickle Cell Disease Association of the Piedmont (High Point and Greensboro, North Carolina) Collaborative Adolescent Pregnancy Prevention Project (CAPPP) - Evaluation

**Funding Agency:** North Carolina Department of Health

**Total Amount:** \$100,000 per year total project cost / 5 year project

**Percent Effort on Project:** 5%

**Funding Period:** 8/97 - 8/02

**Role on Project:** Co-Investigator and Principal Evaluator

**Project Description:** Wrote evaluation grant. Collaboratively developed, implemented and formatively evaluating the CAPPP community-based outreach and participatory efforts aimed at primary pregnancy prevention, abstinence, resistance and decision-making skill building and empowerment of adolescents.

**Title:** Evaluation of the Alabama Community-based Perinatal Initiatives

**Funding Agency:** Bureau of Family Health Services (BFHS) of the Alabama Department of Public Health (ADPH)

**Total Amount:** \$85,000

**Percent Effort on Project:** 10%

**Funding Period:** 8/97 - 8/2000

**Role on Project:** Evaluator

**Project Description:** Wrote evaluation grant. Based on the Integrated Model of Community-based Evaluation (IMCBE): a) develop, based on state-level Perinatal measurable objectives and core principles of the BFHS, indicators, measures, data collection instruments and protocols; b) review and come to an agreement with funded projects on project specific measurable objectives, indicators and measures and methods to collect state-level and project specific data; and c) develop and implement a protocol for data analysis, review and use by the BFHS and Community Perinatal support and medication/transportation projects.

**Title:** Bureau of Family Health Services (BFHS) of the Alabama Department of Public Health (ADPH) Community-based Health Initiatives (CBI) – Evaluation Component

**Funding Agency:** Funded as a separate part of the State Systems Development Initiative (SSDI) contract to the UAB Department of Maternal and Child Health

**Total Amount:** \$105,000

**Percent Effort on Project:** 10%

**Funding Period:** 8/97 - 8/2000

**Role on Project:** Evaluator

**Project Description:** Wrote evaluation grant. Based on the Integrated Model of Community-based Evaluation (IMCBE): a) develop, based on state-level CBI measurable objectives and core principles of the BFHS, indicators, measures, data collection instruments and protocols; b) review and come to an agreement with funded projects on project specific measurable objectives, indicators and measures and methods to collect state-level and project specific data; c) develop and implement a protocol for data analysis, review and use by the BFHS and CBI projects; and d) “Building Capacity to Build Capacity” by providing introductory and on-going in-service training to grant recipients, regional and state-level administrators on the fundamental principles and methods of community evaluation.

**Title:** Population approach to linking social/health services and clinical management issues of sickle cell disease (SCD).

**Funding Agency:** University of Alabama at Birmingham’s Lister Hill Center for Health Policy

**Total Amount:** \$14,021

**Percent Effort on Project:**

**Funding Period:** 6/97 - 8/98

**Role on Project:** Principal Investigator

**Project Description:** Assisted with writing the research grant. Small grant aimed at: a) developing a social epidemiological profile of persons with SCD in North Carolina; b) developing and refining a multi-conceptual ecological model linking bioclinical and disease management, health and human services and community-based contextual domain; and c) to utilize differing statistical methodologies in the demonstration of key components of the multi-conceptual model.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** Medical Center of Delaware Adolescent Maternity Service (AMS) Pregnancy Intervention Project - Evaluation

**Funding Agency:** Christiana Care of Delaware

**Total Amount:** \$74,692 / 2-year project

**Percent Effort on Project:** 10%

**Funding Period:** 4/96-present

**Role on Project:** Principal Investigator and Principal Evaluator

**Project Description:** Wrote evaluation grant. Developed, implemented and currently formatively evaluating the AMS's community-based outreach and participatory efforts aimed at secondary pregnancy reduction, reduction of post-natal complications and life-skill empowerment of adolescents.

**Title:** Evaluation of the Cumberland County Partnership for Children (CCPFC) Smart Start Initiative - Evaluation

**Funding Agency:** State of North Carolina Department of Human Services

**Total Amount:** \$.190,274

**Percent Effort on Project:** 10%

**Funding Period:** 12/95-present

**Role on Project:** Principal Investigator and Principal Evaluator

**Project Description:** Assisted with writing the evaluation grant. Developed, implemented and currently formatively evaluating the efforts of the CCPFC to locally implement the statewide, community-oriented initiative aimed at empowering families to build on strengths and increase the overall well-being of children. The evaluation is a collaborative/ participatory approach that is based on the methods of the Integrated Model of community-based Evaluation (IMCBE) originated by the evaluator. The project also includes a "Building Capacity to Build Capacity" component that involves the provision of introductory and on-going training with grant recipients on the fundamental principles and methods of community evaluation

**Title:** North Carolina Regional Research Center on Head Start Quality

**Funding Agency:** Administration on Children, Youth and Families, Department of Health and Human Services

**Total Amount:** \$2,390,697

**Percent Effort on Project:** 10%

**Funding Period:** 10/95-7/96

**Role on Project:** Co-Investigator

**Project Description:** Assisted with writing the research grant. Lead community and family program evaluation component, assist with health evaluation section and the research team with the development and implementation of measures suitable for documenting quality in these domains of service delivery.

**Title:** Division of Policy and Ethics, Duke/UNC Comprehensive Sickle Cell Center

**Funding Agency:** National Heart, Lung and Blood Institute, NIH

**Total Amount:** \$ 75,000

**Percent Effort on Project:** 10%

**Funding Period:** 5/95-9/96

**Role on Project:** Co-Principal Investigator and Associate Director

**Project Description:** Assisted with writing the grant. Assist with management of business and service activities; development, implementation and analysis of health services and community based research of issues impacting persons with Sickle Cell Disease.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** North Carolina Smart Start Family Ties Project - Evaluation

**Funding Agency:** The State of North Carolina, Department of Human Resources, Division of Family Development

**Total Amount:** \$42,277.00

**Percent Effort on Project:** 20%

**Funding Period:** 11/94-8/95

**Role on Project:** Principal Investigator and Principal Evaluator

**Project Description:** Wrote evaluation grant. Development, implementation and analysis of needs and assets assessment procedures, materials and data. Participate in community level decision making. Collaborate with state level and local (county) agency personnel in the utilization and dissemination of information from project.

**Title:** Training Program in Maternal and Child Health

**Funding Agency:** Bureau of MCH

**Total Amount:** \$1,552,205

**Percent Effort on Project:** 14%

**Funding Period:** 7/94-9/96

**Role on Project:** Investigator

**Project Description:** Assisted with writing the grant. Provide academic and practical skill training to students enrolled in the Department of Maternal and Child Health, University of North Carolina at Chapel Hill.

**Title:** Bridges Community Resource Center - Evaluation

**Funding Agency:** Cumberland County (North Carolina) Schools

**Total Amount:** \$40,000

**Percent Effort on Project:** 5 %.

**Funding Period:** 7/94-present

**Role on Project:** Principal Investigator and Evaluator

**Project Description:** Wrote evaluation grant. Development, implementation and analysis of program services data. The evaluation is a collaborative/participatory approach that is based on the methods of the Integrated Model of community-based Evaluation (IMCBE) originated by the evaluator

**Title:** North Carolina Smart Start House Calls Project - Evaluation

**Funding Agency:** The State of North Carolina, Department of Human Resources, Division of Family Development.

**Total Amount:** \$24,012.00

**Percent Effort on Project:** 20%

**Funding Period:** 3/94-6/94

**Role on Project:** Principal Investigator and Evaluator

**Project Description:** Wrote evaluation grant. Development, implementation and analysis of needs assessment procedures and data. Participate in community level decision making. Collaborate with state level and agency personnel and utilization and dissemination of information from project.

**Title:** Epidemiological Analysis of Client and Program Characteristics for the North Carolina State Sickle Cell Syndrome Program

**Funding Agency:** Junior Faculty Development Award from the University of North Carolina at Chapel Hill

**Total Amount:** \$3,000

**Percent Effort on Project:** 5%

**Funding Period:** 1/94-12/94

**Role on Project:** Principal Investigator

**Project Description:** Wrote research grant. Development, implementation and analysis of cross-sectional study of characteristics of clients using North Carolina Sickle Cell Syndrome Services in 1993.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** Smart Start Inclusion Project, Principal Investigator Virginia Buysse, Frank Porter Graham Child Development Center

**Funding Agency:** State of North Carolina Department of Human Services

**Total Amount:** Funds shared with Smart Start Project

**Percent Effort on Project:** 10%

**Funding Period:** 12/93-9/96

**Role on Project:** Co-Investigator

**Project Description:** Assisted with writing of the analysis grant. Developed and assisted with the writing of the measurement procedures for the family, provider, and community resource/service components. Overall analysis of the project with special emphasis on family, provider, and community resource/service issues.

**Title:** Parental Caregiving with Infants Sero-Positive for HIV, Principal Investigator Margaret Miles, UNC-CH School of Nursing

**Funding Agency:** U.S. Department of Health and Human Services

**Total Amount:** \$1,163,426

**Percent Effort on Project:** 10%

**Funding Period:** 6/93-5/96

**Role on Project:** Investigator

**Project Description:** Assisted with writing of the grant. Developed and assisted with the writing of the measurement procedures for the family and community resource components. Overall analysis of the project with special emphasis on family and community resource issues.

**Title:** Pilot Study for the Development of a Program of Transition for Individuals with Sickle Cell Disease

**Funding Agency:** Comprehensive Sickle Cell Program and the School of Public Health's Center for Minority Health at the University of North Carolina at Chapel Hill.

**Total Amount:** \$3,000

**Percent Effort on Project:** 5%

**Funding Period:** 9/92-6/94

**Role on Project:** Principal Investigator

**Project Description:** Wrote research grant. The primary aim of the study was the development, piloting and analyzing a set of new instruments designed to assess perceptions about transition to adult care of adolescents and adults with sickle cell disease, their parental caretakers and national cohort of providers.

**Title:** Evaluation of North Carolina's Smart Start Program

**Funding Agency:** State of North Carolina, Department of Human Resources, Division of Family Development

**Total Amount:** \$600,000

**Percent Effort on Project:** 10%

**Funding Period:** 7/93- 9/96

**Role on Project:** Co-Investigator

**Project Description:** Assisted with the writing of the research grant. Developed and assisted with the writing of measurement procedures for the medical, family, and community resource/service components. Overall analysis of the project with special emphasis on medical, family, and community resource/service issues.

**Title:** Parental Care-giving with HIV Infectious Infants

**Funding Agency:** NIMH

**Total Amount:** \$1,163,426

**Percent Effort on Project:** 9%

**Funding Period:** 6/93-5/96

**Role on Project:** Investigator

**Project Description:** Assisted with the writing of the research grant. Develop and write conceptual and measurement procedures for the family and community resource components. Overall analysis of the project with special emphasis on qualitative methods and issues of family and community resources.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title:** National Study of Existing Mutual Assistance Groups for Adolescents with Sickle Cell Disease and Impact of Mutual Assistance Groups on the Psychosocial Functioning of Adolescents with Sickle Cell Disease

**Funding Agency:** Duke University Comprehensive Sickle Cell Center, at the University of North Carolina, Chapel Hill

**Total Amount:** \$100,000

**Percent Effort on Project:** 50%

**Funding Period:** 7/91-6/92

**Role on Project:** Co-Principal Investigator

**Project Description:** Wrote the research grant. Supplemental Project to the Parent Grant -- The Impact of Self-Help Groups on Adults with Sickle Cell Anemia, NIH Grant# 5P60 HL28391-08---303-6639, Kermit Nash, Ph.D., P.I.

**Title:** Psychological Effects on Symptom Perception (Barbara Curbow Ph.D, PI)

**Funding Agency:** Johns Hopkins University, School of Hygiene and Public Health, Department of Environmental Health Sciences

**Total Amount:** \$250,000

**Percent Effort on Project:** 10%

**Funding Period:** 1/87-8/87

**Role on Project:** Research Assistant

**Project Description:** Programming/Data Analysis various projects

**Title:** Impact of Hospital Discharge Planning on Patient Outcomes (Donald Steinwachs Ph.D. P.I ) 5-R18 HS 05410

**Funding Agency:** National Center for Health Services Research

**Total Amount:** \$350,000

**Percent Effort on Project:** 10%

**Funding Period:** 5/86-9/86

**Role on Project:** Research Assistant

**Project Description:** Programming/Data Analysis various projects

### Other Research

**Title:** Multi-Site Pilot Study of Transition to Adult care for Adolescents with Sickle Cell Disease

**Funding Agency:** Internal funds from University of Alabama at Birmingham to the UAB Comprehensive Sickle Cell Center

**Total Amount:** \$3,000

**Percent Effort on Project:** 5%

**Funding Period:** 1/98 to 6/2003

**Role on Project:** Principal Investigator

**Project Description:** Wrote the research grant. Building on previous pilot (1994) research, this national study was designed to implement and analyze a set of data collection tools designed to assess adolescent, young adults with sickle cell disease and their parental caretaker perceptions regarding and readiness for transition to adult care and life.

**Title:** Care utilization and Costs for Medicaid Covered Children with Sickle Cell Disease (SCD): A ten year review of Alabama's Claims

**Funding Agency:** Internal funds from University of Alabama at Birmingham to the UAB Comprehensive Sickle Cell Center

**Total Amount:** \$3,500

**Percent Effort on Project:** 5%

**Funding Period:** 1/98 to 6/2003

**Role on Project:** Co-Principal Investigator (Janet Bronstein, PhD, PI)

**Project Description:** The goal of this project is to document the average care costs of care and the distribution of costs of care, by type of service provided, across the population of children ages 0 to 18 years who are diagnosed with SCD.

**Pending Research/Evaluation**

**Title:** *Sembrando Las Semillas de la Salud* Sowing the seeds of health) (NIH R25 grant)

**Funding Agency:** National Cancer Institute, National Institutes, DHHS

**Total Amount:** \$300,000/ per year X 3

**Percent Effort on Project:** 10%

**Funding Period:** 10/2002-9/2005

**Role on Project:** Co-Investigator, (Isabel Scarinci, PI – Preventive Medicine)

**Project Description:** Co-wrote the proposal. The *Sowing the Seeds of Health* (*Sembrando las Semillas de la Salud*), and educational program to promote breast and cervical cancer screening among Latina immigrants, the “Sowing the Seeds of Health” program uses their interest in family planning as a way to promote breast and cervical screening within this population, thereby making it unique. Researchers will adapt, refine, implement, and evaluate a pilot-tested culturally relevant educational program to promote breast and cervical screening among Latina immigrants of reproductive age which is “packaged” as a family planning program. Based on a “hub and spoke” approach, researchers will disseminate the tested educational program to other sites within the state of Alabama. The **rationale** for this proposal is that the further development and evaluation of such educational program will increase breast and cervical cancer screening rates among Latina immigrants. **Special expertise will be provided** in the areas of Community Development, Culturally Competent Qualitative and Quantitative (psychometric), measurement and Indicators item and tool development, community-based collaboratory/participatory research, evaluation, and education, primary data collection methods and analyses, review and summary write-up of the research.

**Title:** Measurement of MCH Core Practice Principles at the Community Level

**Funding Agency:** Potential funder: MCHB

**Total Amount:** funding request \$300,000 (planned)

**Percent Effort on Project:** 10% (planned)

**Funding Period:** 5/years (planned)

**Role on Project:** Principal Investigator

**Project Description:** One of the primary objective of the study is to test reliability and level of integration a set of measures that are specific to the core MCH practice principles of family-centeredness, community-based, coordinated/collaboration and cultural competence. The study will use collected and to-be-collected data from the Program Questionnaire (a tool developed and pilot tested by the PI). The data will come from providers of health and human services in two Southeastern states. A second primary objective is refine the Program Questionnaire for use by provider of MCH health and Human services in community settings.

**Public Health Practice and Technical Assistance Activities**

**Title:** Ethnic Differences in Pain Responses

**Funding Agency:** NIH/NINDS

**Consulting/Technical Assistance Period:** intermittent

**Role on Project:** Technical Expert – Measurement and Assessment of Ethnicity and Culture

**Project Description:** Provide as needed advice and expertise to a project designed to investigate the ethnic differences in responses to experimentally-induced pain, and to explore the biological, psychological and sociocultural factors contributing to these differences. Roger Filligan, PhD., University of Florida, PI. **Special expertise provided** in the areas of community Conceptual Development, Culturally Competent Qualitative and Quantitative measurement, primary and secondary data collection methods and analyses, review and summary write-up of the recent cultural competency literature, report development and information problem-solving.

**Title:** Communities in Charge: Financing and Delivering Health Care to the Uninsured

**Funding Agency:** Robert Wood Johnson Foundation

**Consulting/Technical Assistance Period:** intermittent

**Role on Project:** Technical Expert – Practice-based Measurement and Assessment

**Project Description:** Provide as needed advice and expertise to Coordinated Health System of Jefferson County (Alabama) in the development, implementation and formative evaluation of this first time health-based initiative for poor and uninsured persons. The purpose of the project is to “mold the current fragmented systems for the poor and uninsured into a seamless continuum of care that promotes primary and preventive care, chronic disease management, and appropriate specialty and inpatient services.” The process evaluation work is a modification of the collaborative/ participatory approach that is based on the methods of the Integrated Model of community-based Evaluation (IMCBE) originated by the evaluator. The modification with include a cost trend analyses (primary and specialty care) component, a longitudinal analyses of eligible enrolled and un-enrolled clients, qualitative analyses of the collaborative process between partners (current and new) and the development of a trend analyses the management of selected chronic conditions. **Special expertise provided** in the areas of community outreach, planning and negotiation, Cost Analyses, Conceptual Development, Culturally Competent Qualitative and Quantitative measurement, tool development, collaborative/participatory evaluation, primary and secondary data collection methods and analyses, review and summary write-up of the recent evaluation literature and implementation, report development and information problem-solving.

**Title:** *Salud Para Todos* (Health for All) – Evaluation Component

**Funding Agency:** Substance Abuse and Mental Health Services Administration, National Institutes, DHHS

**Consulting/Technical Assistance Period:** intermittent

**Role on Project:** Technical Expert – Data analyst and Protocol preparation

**Funding Period:** 10/20-01-9/2002

**Project Description:** Assist project with the analyses and integration of project data. The project is a collaborative effort between the Greater Birmingham Latino Community Organization, Centro de Salud, and the Central Alabama Alliance for Latino Health (wrote the background and project methodology). The project is a first time health-based needs, assets and capacity assessment of the Latino community and providers in the Greater Birmingham area. The process evaluation, analytical work and protocol development is a collaborative/ participatory approach that is based on the methods of the Integrated Model of community-based Evaluation (IMCBE) originated by the evaluator that includes a “Building Capacity to Build Capacity” component and the development of a GeoSocioGram of general health, human HIV and substance abuse preventive services. **Special expertise provided** in the areas of community outreach, planning and negotiation, Conceptual Development, Culturally Competent Qualitative and Quantitative measurement, tool development, collaborative/participatory evaluation, primary and secondary data collection methods and analyses, review and summary write-up of the recent evaluation literature and implementation, report development and information problem-solving.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title/Agency/Program:** SSDI/CISS/Healthy Child Care Alabama Project, ADPH Bureau of Family Health Services

**Consulting/Technical Assistance Period:** 3/99-8/2002

**Funding Agency:** HRSA, Bureau of Maternal and Child Health

**Role:** Evaluation Consultation and Technical Assistance:

**Description of Activities:** a) Provide didactic workshops and individual consultations for Nurse Consultants and Community Providers on collaboration and evaluation of child service programs in community settings; b) Assist in development of the evaluation components and strategy for this CISS grant; c) conduct on-going community-based organization, planning and evaluation activities. **Special expertise provided** in the areas of community-based evaluation methods (quantitative and qualitative methods), culturally competent assessment methods, health program evaluation, lay and professional training, grant development, report development and information dissemination.

**Title:** HRSA Project: Developing Indicators And Measurement Of Cultural Competence For Direct Service Delivery

**Funding Agency:** Health Services Resources Administration (HRSA) Office of Minority Health

**Consulting/Technical Assistance Period:** 11/2000-9/2001

**Role on Project:** Technical Expert – Practice-based Measurement and Assessment

**Project Description:** Assisted the Lewin Group (HRSA contractor) to: 1) develop a conceptual model of cultural competency for primary care settings; 2) identify indicators and measures that can be used to assess cultural competency; 3) test the practical application of these measures in best-practice settings; and 4) assist with final report writing and program /legislative policy recommendations. **Special expertise provided** in the areas of Conceptual Development, Culturally Competent Qualitative and Quantitative (psychometric) Measurement and Indicators item and tool development, data collection and analyses methods, review and summary write-up of the recent research literature, legislation and best practices, development of practice-based policies and implementation, report development and information problem-solving.

**Title:** NCODH Project: Assessing the Health Related Needs of Youth with Chronic Health Conditions and Disabilities

**Funding Agency:** Office of Disability and Health, State of North Carolina Department of Health and Human Services

**Consulting/Technical Assistance Period:** 3/2000-10/2000

**Role on Project:** Technical Consultant – Qualitative Data and Assessment

**Project Description:** Wrote the background literature paper for the final project report; needs assessment data collection tool; analyzed and synthesized the findings from the state-wide adolescent focus groups; assist with final report writing and program /legislative policy recommendations. **Special expertise provided** in the areas of Qualitative data collection methods and assessment (focus groups), review and summary write-up of the recent research literature, legislation and best practices, development of practice-based policies, report development and information problem-solving.

**Title:** Halifax and Warren Counties (North Carolina) Smart Start Initiatives – Needs Assessment

**Funding Agency:** State of North Carolina Department of Human Services

**Consulting/Technical Assistance Period:** 1/2000-1/2001

**Role on Project:** Technical Consultant – Data and Assessment

**Project Description:** Assisted with writing the needs assessment data collection tool; assisted with strategic planning for the local community data collection; performed the data analysis; assist with final report writing. **Special expertise provided** in the areas of community data collection methods, culturally competent assessment methods, social research (quantitative and qualitative methods), data collection and assessment methods specific to poor and minority populations, and data gathering, report development and information problem-solving.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title/Agency/Program:** Robert Wood Johnson Foundation – Evaluation Unit

**Consulting/Technical Assistance Period:** 1/2000-3/2001

**Funding Agency:** Robert Wood Johnson Foundation

**Role:** Evaluation Consultation

**Description of Activities:** Assisting the Foundation in reviewing and mapping out appropriate evaluation strategies for applicants for funded activities. **Special expertise provided** in the areas of community-based evaluation methods, culturally competent assessment methods, social research (quantitative and qualitative methods), strategic planning, data collection and assessment methods specific to persons with chronic conditions, and data gathering, report development and information problem-solving.

**Title/Agency/Program:** Center for Policy and Program Affairs – Family Voices Organization Evaluation

**Consulting/Technical Assistance Period:** 1/2000-12/2000

**Funding Agency:** Institute for Child Health Policy, University of South Florida

**Role:** Evaluation Consultation

**Description of Activities:** Assisting the Institute in planning and mapping out appropriate evaluation strategies for the Family Voices Organization's funded and unfunded activities. **Special expertise provided** in the areas of community-based evaluation methods, culturally competent assessment methods, social research (quantitative and qualitative methods), data collection and assessment methods specific to persons with chronic conditions, and data gathering, report development and information problem-solving.

**Title/Agency/Program:** National Decisions for Health Network Evaluation Workgroup

**Consulting/Technical Assistance Period:** 1/2000-6/2001

**Funding Agency:** Alabama Cooperative Extension Community Health, Auburn through the U.S. Department of Agriculture

**Role:** Evaluation Consultation

**Description of Activities:** Assisting the National workgroup with the development of a manual and training materials for community-based evaluation; develop and conduct two interactive workshops on community-based health program evaluation; provide ongoing problem-solving and strategic planning in the areas of community education outreach and assessment. **Special expertise provided** in the areas of community-based evaluation methods (quantitative and qualitative methods), culturally competent assessment methods, health program evaluation, inservice training, data gathering, problem-solving, report development and information dissemination.

**Title/Agency/Program:** Partners for Healthy Community

**Consulting/Technical Assistance Period:** 2/2000-3/2001

**Funding Agency:** Jefferson County Department of Public Health, Alabama

**Role:** Evaluation Consultation

**Description of Activities:** Assisting the health department to plan and map out appropriate evaluation strategies for its community education outreach activities; providing introductory and on-going inservice training in the areas of outreach, program monitoring and assessment and the fundamental principles and methods of community evaluation. **Special expertise provided** in the areas of community-based evaluation methods, community outreach and development, culturally competent assessment methods, health program evaluation, lay and professional training, grant development, report development and information dissemination.

**Title/Agency/Program:** Adolescent Transition Program: Networking New England

**Consulting/Technical Assistance Period:** 8/9-1/2000

**Funding Agency:** Brigham and Women's Hospital, Boston

**Role:** Evaluation Consultation and Technical Assistance

**Description of Activities:** Assisting members of the transition research team with efforts of problem solving, strategic planning, key of key findings and dissemination of current and emerging information on transition to adult care for adolescents with sickle cell disease. **Special expertise provided** in the areas of health program evaluation (quantitative and qualitative methods), professional education and training, report development and information dissemination.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title/Agency/Program:** Sickle Cell Disease Association of the Piedmont's Home Health project

**Consulting/Technical Assistance Period:** 1/94-present

**Role:** Evaluation Consultation and Technical Assistance

**Description of Activities:** This is a longitudinal study of the health services experiences of a cohorts of adults and children with sickle cell disease in five counties in the Piedmont of North Carolina. Duties include: 1) assisting with the development of the design of the study; and 2) assisting with the ongoing data analysis and report writing for funders. **Special expertise provided** in the areas of community-based evaluation methods (quantitative and qualitative methods), community outreach and development, social research, data collection and assessment methods specific to persons with chronic conditions, health program evaluation, grant development, report development and information dissemination.

**Title/Agency/Program:** Minority Health Advisory Council, Minority Health Section, Office of Primary Care Rural Health Development, ADPH

**Consulting/Technical Assistance Period:** 10/99-present

**Funding Agency:** Alabama Department of Public Health

**Role:** Evaluation Consultation

**Description of Activities:** Consulting/training, program development, planning and evaluation, and problem-solving for several DHEC projects. **Special expertise provided** in the areas of lay and professional education and training, and testing methods specific to diverse public health professionals at the state and regional levels, and strategic planning for local program development, implementation and assessment.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Title/Agency/Program:** Triad Sickle Cell Anemia Foundation, Inc. Outreach and Training  
Program for Adolescents and Young Adults

**Consulting/Technical Assistance Period:** 3/92-4/95

**Funding Agency:** Various Foundations

**Role:** Planning and Evaluation Consultant

**Description of Activities:** Provided technical assistance with the agency's needs assessment and program development for the youth outreach and training program.. **Special expertise provided** in the areas of lay and professional education and training, and testing methods specific to genetic professionals.

**Title/Agency/Program:** Children's Hospital Oakland, Child Protection Treatment Services Project (CPTSP).

**Consulting/Technical Assistance Period:** 5/91-12/92

**Funding Agency:** County of Alameda, California

**Role:** Program Evaluation Consultation and Technical Assistance

**Description of Activities:** Provided technical assistance with the development of the evaluation plan and its implementation for CPTSP project. **Special expertise provided** in the areas of lay and professional education and training, and testing methods specific to pediatric medical social work professionals.

**Title/Agency/Program:** State of California, Newborn Screening Program, San Francisco Bay Area Region,  
Elliot Vichinsky, M.D., P.I., Grant #89-97232

**Consulting/Technical Assistance Period:** 9/89-6/91

**Funding Agency:** State of California Department of Health

**Role:** Social Work Consultant

**Description of Activities:** Provided consultation on the development and implementation of the social work component of State of California Newborn Screening Program. **Special expertise provided** in the areas of lay and professional education and training, and testing methods specific to genetic professionals.

**Title/Agency/Program:** Foster Placement of Medically Fragile Children Project (MFCP).  
Bette Isabelle, LCSW, P.I. Children's Hospital Oakland, California. Project funded  
in part by the San Francisco Foundation and the Northern California Grantmakers  
AIDS Task Force

**Consulting/Technical Assistance Period:** 9/89-6/91

**Funding Agency:** Children's Hospital Oakland

**Role:** Evaluation Analyst (TA)

**Description of Activities:** Provide technical assistance with the development and formative evaluation of the MFCP project. **Special expertise provided** in the areas of state level health program evaluation, and social research, data collection and assessment methods specific to populations of vulnerable youth.

**Title/Agency/Program:** Population Communication Services, Baltimore, Maryland, November 1985 -  
September 1987.

**Consulting/Technical Assistance Period:** 8/87-10/87

**Funding Agency:** USAID

**Role:** Data Programmer/Analyst NTA/Enugu Project

**Description of Activities:** Assisted program investigators with the programming and analyses of project data.

**Public Health Practice Expert Advisories and Panels Based on Recognized Scholarship and Expertise**

**Name:** Institute for Child Health Policy, Division of Policy and Programs (John Reiss, PhD., Director)

**Role/Area of Expertise:** Public Health Practice; research and Evaluation on Adolescents with Special Health care needs

**Dates:** 6/2001 - present

**Summary of Advisory work:** Based on selection by the division director, work with ad hoc advisory committees to review planned projects on of prevention, transition to adult care and related issues of adolescents with special health care needs; assist as-needed with development of methodology sections of planned research and evaluation efforts; participate in professional training.

**Name:** National Technical Advisory Panel for the Healthy Start Evaluation, HRSA-MCHB,

**Role/Area of Expertise:** Evaluation, Practitioner and Measurement Expert

**Dates:** 8/2000-present

**Summary of Advisory work:** By competitive referral and selection, was asked to serve on a panel of policy, program and evaluation experts to advise the Federal Healthy Start Evaluation effort. Major role on the project includes review of the proposed and final national evaluation design and provide ongoing advice on strategy, implementation and measurement issues for the community-based implementation of the evaluation.

**Name:** Sickle Cell Disease Advisory Committee (**Public Health Expert**), Division of Blood Disease and Resources, National Heart, Lung and Blood Institute, NIH (4/2000 – present)

**Role/Area of Expertise:** Clinical Care; Social and Community-based Research; Public Health practice

**Dates:** 4/2000 to present

**Summary of Advisory work:** By competitive referral and selection, was asked to serve on a panel of expert

**Name:** National Advisory Committee on Cultural Competency Curricular Modules, DHHS, Office of Minority Health,

**Role/Area of Expertise:** Evaluation and Measurement Expert; Diversity and Health Care Access Research

**Dates:** 2/2000-present

**Summary of Advisory work:** By competitive referral and selection, was asked to serve on a panel of experts to provide guidance throughout the project. Based on the three main areas of the CLAS Standards experts in the field were asked to work with the American Institutes for Research (Carlos Rodriguez, PI) to provide input and feedback on on Culturally Competent Care, Language Access Services, and Organizational Supports modules for use by Primary Care and Family Medicine Practitioners. The advisor process involves intermittent manuscript (hard copies and electronic) and module review, face-to-face meetings, leadership in a series of Consensus-Building Meetings and the development of the content of the *Cultural Competency Curriculum Modules* for physicians.

**Name:** Evaluation Advisor, Minority Health Advisory Council, Alabama Department of Public Health, State of Alabama

**Role/Area of Expertise:** Professional Development and Teaching; Epidemiological Data systems linked to the community; Program Evaluation

**Dates:** 11/99 – present

**Summary of Advisory work:** Selected to serve on committee which is advisory to the Minority Health Director; led the effort to develop the RFA (Innovative Models/Programs Address Health Disparities of Racial and Ethnic Minority Populations in Alabama) for data system creation within community-based programs; Researched and provided guidance on assessment issues specific to health disparities in Alabama; serve as the Research Scientist on the Committee

**Name:** Community Development Committee (**Evaluation Expert**) Alabama Southern Rural Access Program - Robert Wood Johnson Funded Program of the Partnership between West Alabama Health and the Alabama Department of Public Health

**Role/Area of Expertise:** Community-based Practice; Community-based Evaluation Methodology

**Dates:** 8/98 - present

**Summary of Advisory work:** Selected by the executive Committee of the Alabama Southern Rural Access Program to provide as-needed expertise and advice to the overall program and their grantees on program development, Professional training and evaluation of their efforts.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Name:** Alabama State Children's Rehabilitation Services (CRS)- Program Evaluation Consultation and Technical Assistance for the projects: a) Alabama Interactive Community-Based model for Children with Traumatic Brain Injury (TBI); and b) Adolescent with Special health Care Needs Transition Services project

**Role/Area of Expertise:**

**Dates:** 4/98-present

**Summary of Advisory work:** Based on work with the development of the HP 2010 CSHCN guidelines, particularly transition to adult care, provided guidance on development of goals and objectives specific to Alabama.

**Name:** Medical and Research Advisory Committee (MARAC), Sickle Cell Disease Association of America (SCDAA)

**Role/Area of Expertise:** Program and Policy Development, Social Research, Clinical Care

**Dates:** 8/93 - present

**Summary of Advisory work:** Work with a panel of medical experts to develop materials and advise SCDAA on matter of research and public education. The MARAC was designed to serve as the science and research advisory committee to the SCDAA which is the national organization for over 70 community-based programs serving persons with sickle cell disease.

**Name:** Committee on Educating Public Health Professionals for the 21<sup>st</sup> Century (Institute of Medicine/ National Research Council)

**Role/Area of Expertise:** Public Health Leadership, Community-based Public Health Practice and Research/Evaluation

**Dates:** 8/2002-11/2002

**Summary of Advisory work:** By competitive referral and selection, was asked to serve on a panel of expert external reviewer, in the review of the Institute's draft report by the Committee on Educating Public Health Professionals for the 21<sup>st</sup> Century. This study is a companion study to the Committee on Assuring the Health of the Public in the 21<sup>st</sup> Century. The objective of the study is to assess the past and current state of education and training (theory) for public health professionals and contrast it to future practice needs envisioned by the Committee on Assuring the Health of the Public in the 21<sup>st</sup> Century. The committee's findings will be used to develop a framework for how, over the next five to ten years, education, training, and research in schools of public health can be strengthened to meet the needs of future public health professionals to improve population-level health.

**Name:** Race, Ethnicity and Health: A Reader, Johns Hopkins University Press, Thomas A. Laviest, PhD. (editor), Development and editorial committee

**Role/Area of Expertise:** Multi-Cultural Health Care Research and Practice; Graduate-level Teaching

**Dates:** 2/2001 – 5/2002

**Summary of Advisory work:** By selection of the editor (after a review of the qualifications), served as an editor and provided review of the proposed literature in regards to its level of scholarship, timeliness, quality, relevancy and applicability to graduate-level education.

**Name:** Technical Expert Panel, Project on Measuring Cultural Competence in Health Care Delivery Settings, Office of Minority Health, HRSA

**Role/Area of Expertise:** Evaluation and Measurement Expert; Diversity and Health Care Research

**Dates:** 2/2001 – 9/2002

**Summary of Advisory work:** By competitive referral and selection, was asked to serve on a panel of experts to provide guidance and input into a set of methodologies to identify, define and measure indicators of culturally competent service delivery and systems of care.

**Name:** Maternal and Child Health Bureau, Division of Services for Children with Special Needs - Healthy People 2010 Transition Workgroup

**Role/Area of Expertise:** Public Health Practice; Research and Evaluation on Adolescents with Special Health care needs

**Dates:** 9/99 – 12/2000

**Summary of Advisory work:** By competitive review and selection, participated in the research and development of the guidelines for the Healthy People 2010 CSHCN goals and objectives with a specific focus on goals 6 – Transition to adult care. The outcome of this work is part of larger document published (hard copy and online) by the MCHB/HRSA/DHHS Healthy People 2010 Guidelines.

## Curriculum Vitae / Joseph Telfair, Dr.PH, MSW-MPH

**Name:** Public Health Social Work Standards Committee, Association of State and Territorial Public Social Workers ()

**Role/Area of Expertise:** Public Health Social Work Practice

**Dates:** 8/99 – 9/2001

**Summary of Advisory work:** As part of the Association of State and Territorial Public health Social Workers (ASTPHSW) and based on previous work in North Carolina, assisted with the facilitation participatory process of researching, writing, getting feedback and finalizing Public Health Social Work Standards for the United States.

**Name:** Bureau of Primary Care, Health Resources and Services Administration (HRSA) - Healthy Schools, Health Communities (HSHC) Project Evaluation – Panel on Logistics and Strategy

**Role/Area of Expertise:** Adolescent Program Development and Evaluation

**Dates:** 10/96 - 1/98

**Summary of Advisory work:** Review current goals, objectives and progress of the Healthy Schools, Health Communities (HSHC) Project Evaluation. Advise HRSA and the project staff on strategies and methodology for improved data gathering, school negotiation, data collection and assessment.

**Name:** Planning and Development/Standards and Practice State of North Carolina, Department of Health and Natural Resources, Committee on the Future of Public Health Social Work

**Role/Area of Expertise:** Public Health Social Work Practice

**Dates:** 10/92 - 10/93

**Summary of Advisory work:** As part of the State of North Carolina, Department of Environment, Health, and Natural Resources, Co-Led the participatory process of researching, writing, getting feedback and finalizing Public Health Social Work Standards for North Carolina.

**Name:** Behavioral and Social Science Research/Writing Committee, Cooperative Study of Sickle Cell Disease, National Sickle Cell Disease Program, Division of Blood Diseases and Resources, National Heart, Lung and Blood Institute, National Institutes of Health

**Role/Area of Expertise:** Adolescent with Chronic Condition; Clinical Practice within sickle cell disease

**Dates:** 9/88-9/96

**Summary of Advisory work:** By competitive review and selection, participated in the review and writing of two technical reports and a peer-review publication on children and adolescents with sickle cell disease using data from the Cooperative study.

**Name:** Scientific Advisor, Governor's Council on Sickle Cell Syndrome and Related Hemoglobinopathies, State of North Carolina

**Role/Area of Expertise:** Clinical Practice; Psychological and Social Research; Community-based Evaluation; Professional Training

**Dates:** 5/94-10/96

**Summary of Advisory work:** Advised and worked with council to revise existing guidelines for participation in research, for training of state-level and community staffs and developed template for development, implementation and evaluation of a state-level data system to be used by state and community programs.
